SERVICES FOR RESEARCHERS
offered by the University libraries

ONLINE RESOURCES

The University libraries provide access to thousands of journals, databases and e-books.

Need help?
docelec-contact@univ-lorraine.fr

BIBLIOMETRICS   in collaboration with DAPEQ

→ Identify relevant publications or journals for a research field

→ Identify potential collaborations with researchers or research units

→ Improve the referencing of your publications (unification of authors' names or structures in the Web of Science)

Need help?
bibliometrie-contact@univ-lorraine.fr

RESEARCH DATA

→ Assistance in the drafting of the Data Management Plan

→ Assistance on all issues related to research data management (choosing a repository, opening data, etc.).

Need help?
donnees-recherche@univ-lorraine.fr

The Data Management Plan must be provided within 6 months after the start of the project for the ANR and European fundings.

PHD THESIS

→ Management of the submission and diffusion of thesis

Need help?
ddoc-theses-contact@univ-lorraine.fr

HAL OPEN ARCHIVE

→ **Assistance for depositing your publications in HAL**

→ **Creation of ORCID and idHAL identifiers**

→ **Managing your identity in HAL**

Need help?
hal-contact@univ-lorraine.fr

Submitting the full text in HAL is a solution to meet the requirements of the funders (ANR, ERC, H2020) in terms of open access diffusion.

OPEN SCIENCE

→ **Find all the information on Open Science at the University of Lorraine :**

scienceouverte.univ-lorraine.fr

Need help?
scienceouverte-contact@univ-lorraine.fr

The support offered by the University libraries is particularly important for the setting up of ANR or European projects, for Open Science is now an essential issue for any research project.

You can request a proofreading of the pre-submission files for all Open Science aspects (publications, data management), as well as assistance during the project.

DOCUMENTARY MONITORING

→ **Zotero training**

→ **Management of shared bibliography**

Need help?
ddoc-soszotero-contact@univ-lorraine.fr

TRAINING

As part of their program « Domptez la Doc ! », the University libraries support researchers and PhD students in the following areas:

→ **Being efficient in the search for information**

→ **Disseminating your research**

→ **Using bibliometrics**

→ **Understanding Open Science**

→ **Managing research data, etc.**
